Chenhang Cui

(+86)15209187803 | chenhangcui@gmail.com | Google scholar | GitHub page | Chenhang's homepage

Education

National University of Singapore, School of Computing Singapore
Ph.D. in Computer Science *Jan. 2026*

University of Electronic Science and Technology of China Chengdu, China
Bachelor of Yingcai Honors College *Sept. 2021 - Jun. 2025*

The Middle School Attached To Northwestern Polytechnical University Xi'an, China
High School Diploma *Sept. 2018 - Jun. 2021*

- GPA: 3.98/4.00 Average Score: 90.51 Rank: 2/70 TOEFL: 97
- About me: I am very interested in large models and aspire to become an artificial intelligence scientist in the future. I enjoy making friends and in my daily life, I love running and traveling.
- Research interests: Large Vision-language Models (LVLMs): Trustworthiness in large vision-language models, (hallucination, attack, etc.), Alignment of LVLMs, RL in LVLMs; Multi-view Representation Learning: Exploring better representations for multimodal data in the real world

Research Experience

Safety and Multimodal RL Alignment for VLLMs Aug. 2024 – Aug.2025
Advisor: Prof. Chua Tat Seng, Dr. An Zhang (NUS)

- **Topic**: Safety and Multimodal RL Alignment for VLLMs
- **Description**: Focused on enhancing the safety and alignment of Vision-Language Large Models (VLLMs) by addressing issues of unsafe and misaligned multimodal content generation. The project involves evaluating existing VLLMs, developing new alignment techniques, and assessing their safety.
- **Achievements**: One paper has been accepted by ICLR, 2025. One paper has been accepted by NeurIPS, 2025.

How To Reduce Hallucination In Large Vision-Language Models? May 2023 – Jan.2024
Advisor: Prof. Huaxiu Yao, Prof. Mohit Bansal (UNC MURGe-Lab)

- **Topic**: Reducing object hallucination problems in Large Vision-Language models
- **Description**: Aiming to reduce hallucination in existing Large Vision-Language models (e.g., LLaVa, MiniGPT-4, mPlug-owl).
- **Achievements**: Reduced hallucination by 23% without compromising text diversity in MiniGPT-4. Human and GPT assessments rank our methods as number one. Short version accepted by NeurIPS Workshop, 2023; long version accepted by ICLR. (Conference - 1)

Representation Learning from Multi-view Perspective May 2022 - Sep. 2023
Advisor: Prof. Yazhou Ren, Prof. Lifang He (UESTC, Lehigh)

- **Topic**: Consistency and Complementary of Multimodal Representations
- **Description**: Enhancing representation learning through consistency from multimodal data, applied to downstream ML tasks.
- **Achievements**: Three papers completed (Conference - 2, 4, 5)

Honors & Awards

UESTC Undergraduate Academic Scholarship 2022, 2023, 2024
HUAWEI Scholarship 2023
The Mathematical Contest in Modeling: Honorable Mention (15%), Student Advisor 2024
SenseTime Scholarship: This award is presented to undergraduate students with outstanding contributions in the field of computer science. Only 25 students received this award in 2024. 2024

Technical Skills

Programming: Python, Latex, Git, Matlab, Shell, MarkDown, Html
Communication: Chinese (native), English (TOEFL: 97 - Reading: 24, Listening: 27, Speaking: 21, Writing: 25)
